EXPERIENCE

• ANDROID DEVELOPER (PART TIME)

Company name – strackit

July 2022 – present (Remotely)

- Project Name
 - Jothi Transports Manager login
 - Jothi Transports Driver login

Library used

- **OkHttpClient**
- **URL, HTTP**
- **Material design theme Implementation**
- **Third Party Library for File Picker Feature.**

• ANDROID DEVELOPER (INTERNSHIP)

Company name – strackit

FEB 2022 – JULY 2022 (Remotely)

Description

In this I work with dynamic team and coordinate with them to full fill client need, fixed some bug and add multiple Feature according to client need.

- Project Name
 - Jothi Transports Manager login

PROJECT

CHATTING APPLICATION

<https://github.com/RahulKumar748/CHATTING-APPLICATION->

- Native Android Application using **KOTLIN, firebase**
- An Android application making use of **firebase**, to help people connect and Chat by sending text message, also having **login options**, with **OTP verification**, and also have **notification feature**
- IN THIS –
 - I make **api call** by using **volley library**
 - I also use **Glide library** for image processing
 - For notification feature I use **google api** for SMS notification <https://fcm.googleapis.com/fcm/send> by using this server call through volley library
 - In this I use **firebase Realtime database** for storing chat history And also, **firebase storage** for storing user login detail and profile picture
